Subject: QuickLogic Product Discontinuation Notification

Tracking Number: PCN / EOL – 153501
QL1A100

Dear Valued Customer,

Please be informed by this letter of QuickLogic's difficult decision to discontinue the manufacture of the products listed below. This is due to the significantly higher costs associated with lower volume products.

We understand the difficulty this discontinuation can present, and QuickLogic is making all reasonable attempts to secure outstanding materials to serve our customer's needs. The following is the timetable of our discontinuation at the current pricing:

Last date to place orders: October 30th, 2015

Last date for shipping orders: December 30th, 2015

Orders with delivery / shipment in 2016 will have much higher pricing due to the increased costs outlined above. The following is the timetable of our discontinuation at the higher pricing:

Last date to place orders: December 21st, 2015

Last date for shipping orders: July 01st, 2016

We ask that every effort be made to place last-time buy orders in a timely manner, as product may have limited availability. Orders will be supported on a "first-come, first-serve" basis. While placing orders is not a guarantee of delivery, priority will be given to the earliest-received orders. QuickLogic reserves the right to refuse orders if supply constraints prevent us from fulfilling the orders, and all orders must be placed as "NCNR" (non-cancelable, non-returnable).

As stated above, QuickLogic reserves the right to increase pricing on new orders as lower overall production volumes lead to increased costs. Orders placed with shipment dates during 2015 will receive the most favorable pricing.

Unfortunately, there are no pin compatible replacement devices.

Thank you for your attention in this matter. No response to this notification is required. Please do not hesitate to contact your QuickLogic representative or distributor, if you have any questions. Your continued interest in QuickLogic is greatly appreciated.

Sincerely,

QuickLogic Corporation
